

S.T.A.R.S., Inc. (Special Troopers Adaptive Riding School) gives physically, cognitively, or emotionally challenged individuals the encouragement and support to accomplish things they never thought possible. Therapeutic riding, canine services and other animal assisted activities teach patience, cooperation, control, and what it means to achieve. It takes many volunteers to make this program continue on a daily basis. The need for volunteers is vital. No horse knowledge is necessary, just a desire to help.

You must be at least 14 years of age to be a volunteer
